This document is not meant to be a deployment guide, refer to README.md for the full deployment documentation. Each of the pages of the application will be shown below:

Login/Sign up

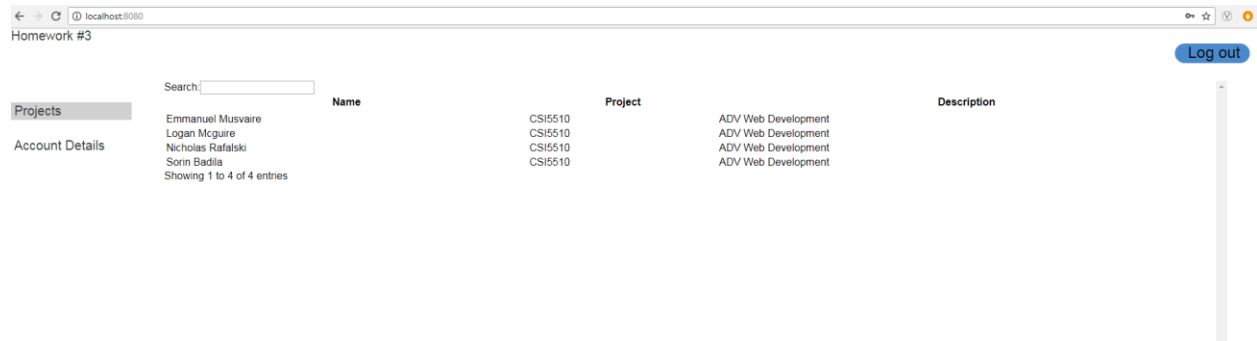

Default login page- Shown when the user first goes to the application url, or when the session token expired. In case of incorrect login info, the user will be shown the error as a popup

The screenshot shows a web browser window with the address bar displaying 'localhost:8080'. The page title is 'Homework #3'. The main content is a form with two tabs: 'Log In' and 'Sign Up'. The 'Sign Up' tab is active. The form contains the following fields: First Name, Last Name, Address, Zip Code, E-mail, Repeat E-mail, Password, and Repeat Password. A 'Sign Up' button is at the bottom of the form.

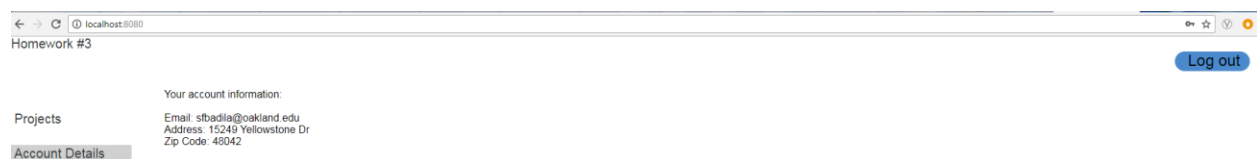

Signup – The user must enter all of the needed fields, there is validation to ensure that all of the data is entered.

The screenshot shows the same web browser window. A modal error message is displayed at the top, stating 'localhost:8080 says Passwords do not match' with an 'OK' button. The form below has the 'Log In' tab active. The fields are filled with the following text: Sorin, adad, asdasda, dasd, sfbadilla@oakland.edu, sfbadilla@oakland.edu, and two password fields, one containing '*****' and the other '****'. The 'Sign Up' button is at the bottom.

Sign up input validation – In case the repeated passwords do not match.

Projects Page – Upon login, the application will show the projects page, which contains information about our group.

Account Details Page – The other page that the user can navigate to show their account information. The user also has the option of logging out, which invalidates the session token and redirects back to the login page.

Trying to get a resource that doesn't exist – The user is redirected to a generic error page
